I really liked the Battersea power station paintings.  
 Great variety & anything to do with the sea intrigues me - so many techniques -  
 Brilliant - Lynne Bragham especially original.  
 Better than I expected - inspired by some work.

" " Fascinating collection
Enjoyed variety of different mediums, especially liked Vw Cribb work Very enjoyable. We liked Marion Prentice in partic. - Crochet works V. interesting work - loved some of the linocuts v. and loved it all - can't pick out one favourite Anthony McIntosh's Ellis Island works and Marian Prentice's linocuts and collagraphs are soulful. The Ellis Island work is Piperesque.
Imagination, calidad, creatived. Muy interesante. - Excellent exhibition, well presented. The bronzes are especially imaginative and <del>ex</del> beautifully executed.
